PIZZA OVEN

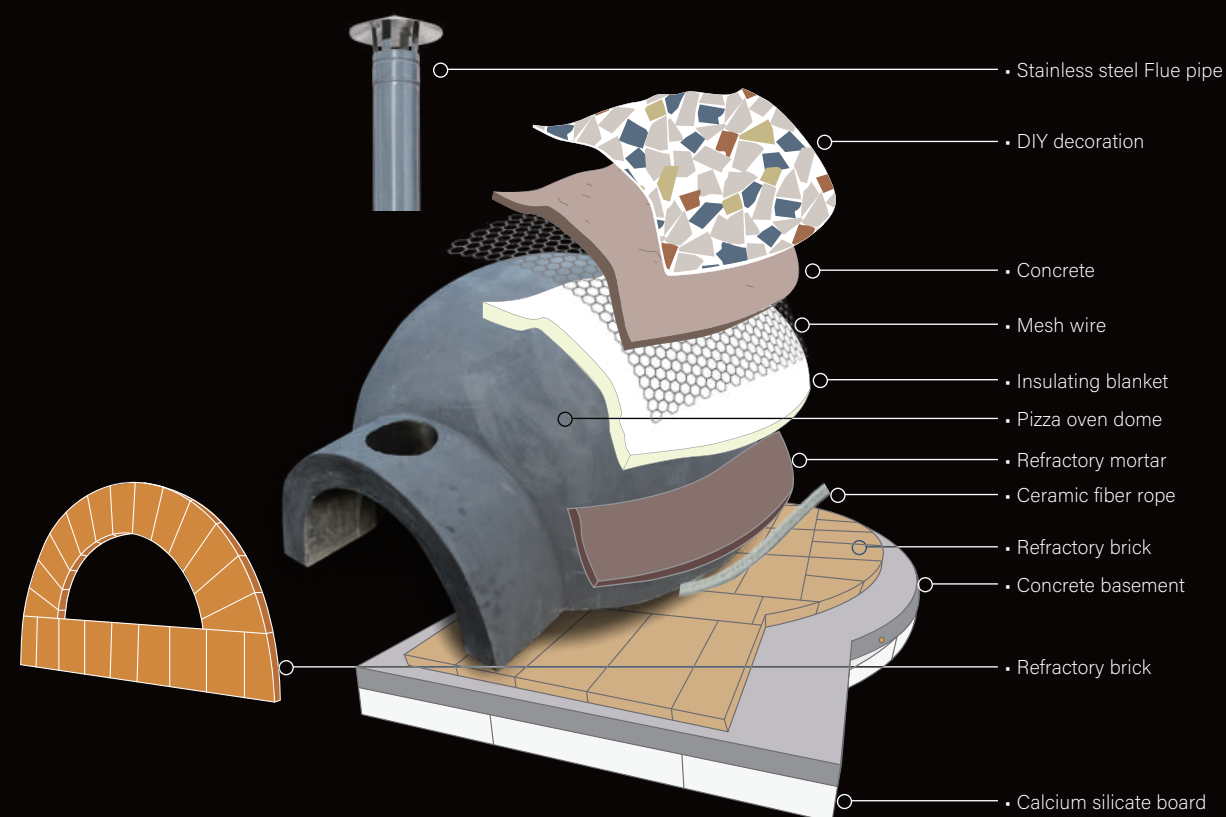

PIZZA OVEN

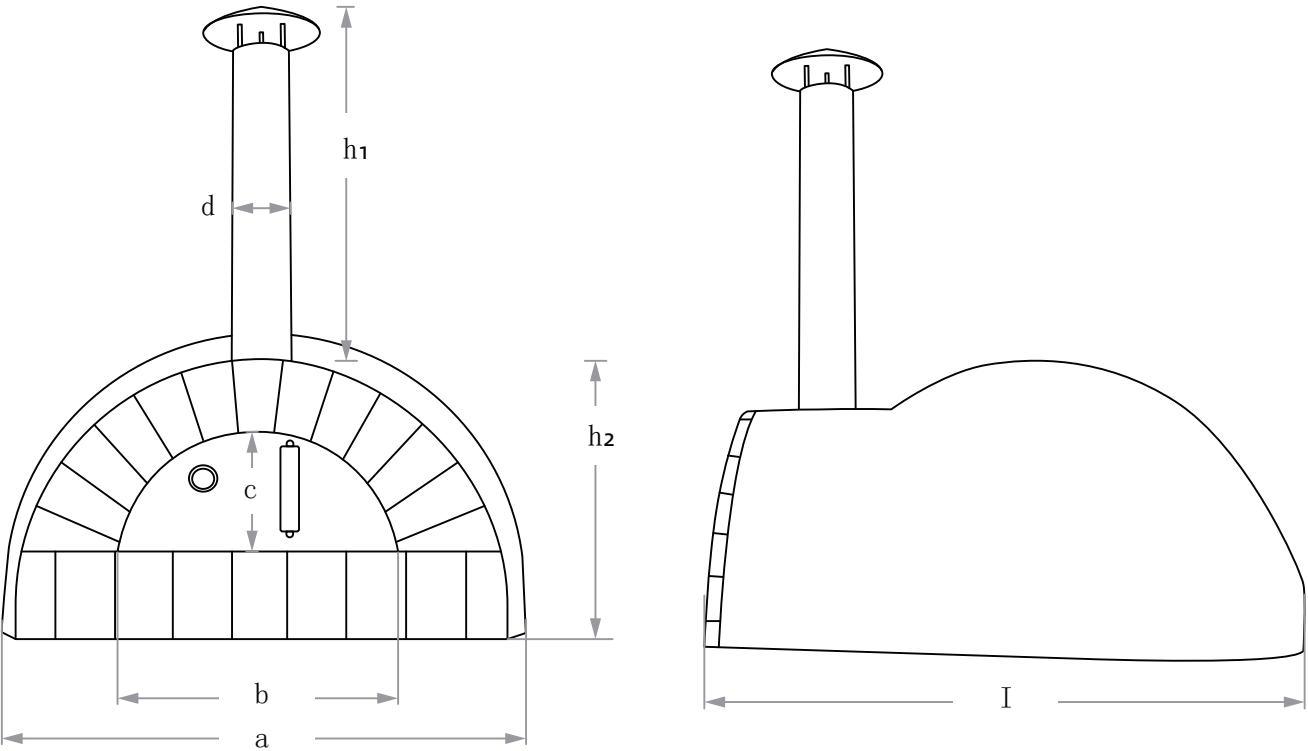

LONGKETER is a professional refractory pizza oven manufacturer that located in Zibo city, Shandong Province, which is a central of refractory industry of China. Established from 2010, till now we got plenty of proceed technology experiences and have cooperation with many big companies.

The internal pizza oven dome is precast monolithic piece made up of super quality refractory castable reinforced with stainless steel fiber, without any cracks or mortar gaps, the oven is stronger with better insulation performance.

The basement is consist with high alumina fire bricks and calcium silicate insulation layer, completely eco-friendly. Bricks could be used as baking pan directly.

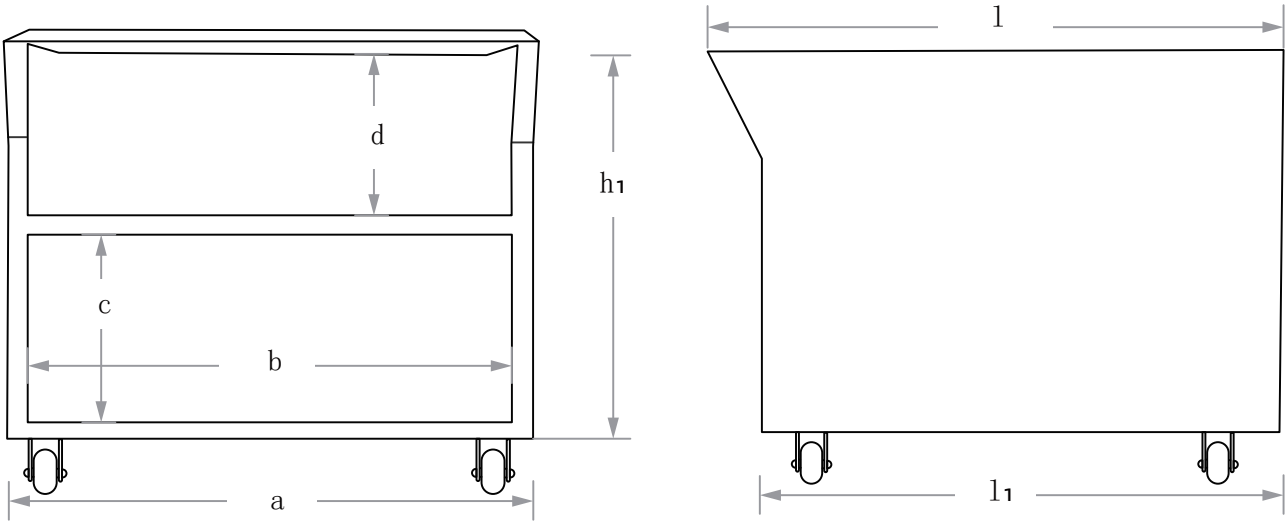

Outside the dome, the insulation blanket is applied as insulation layer, with great industrial thermal insulation performance. It could withstand temperature over 1050 °C.
